Leiothrichidae. It is found in the eastern Himalayas, northern Burma, and Assam, India. Its natural habitats are subtropical or tropical moist lowland forests and subtropical or tropical moist montane forests. It is threatened by habitat loss. Description The white-spectacled

laughingthrush is about 20 cm long, with a wingspan of 45 cm. The upperparts are deep rufous, with the crown of the head, wings and tail feathers white. The underparts are white, with the lower back and rump area of the male dark pinkish orange. The male

has a white streak on his cheek, and the female has a bright red breast. Habitat The white-spectacled laughingthrush is found in secondary, lower montane forests in eastern Himalayas, from eastern Sikkim to Burma, and Assam, India. This is

System Requirements For Boris Graffiti:

(note: This is in no way representative of the lowest possible experience. The lowest possible experience is an endless tidal wave of death, currently only obtainable by dueling or with a good

team. Although rather fun, this is not how you want to experience a game.) Windows OS, Windows 7 or higher 2.5GB RAM 3GB Hard Drive space Monitor with 1280x720 resolution Geforce GTX 460 (or higher), or Radeon HD 4850 (or higher) DirectX 11 DirectX 10
